GIRLS TIME

RESTORING HOPE & DIGNITY

Proviiding Reusable Femimine Hygiene Kits

Girls time started because of a need: girls without feminine supplies. All women share this common bond: our monthly period. The girls in rural Tanzania are using leaves, cardboard, old rags and anything else they can find to meet that need each month. There's a lack of supplies and a lack of money to buy disposable supplies. A girl will miss more than 50 days of school each year because of her period, causing problems with her education. At our first gathering, girls understood and cheered when they received their new supplies and "the good teaching". We are excited to help bring truthful teaching and a solution to their needs. Our CHaRA team is making reusable feminine hygiene kits that will be given in schools. As part of this program we are also taking our purity program to both boys and girls. They will learn God's way for sex and marriage. Respect and integrity will become part of their lives.

CHaRA was birthed in 2006 by the Ron and Carol McDonald family- knowing that it was "more blessed to give than to receive". The need for these projects is heartbreaking, but the results bring the hope and love of God to many young women and children. There is great joy for all who are part of bringing hope through CHaRA.
It truly is a beautiful mission!

Birth Hope Center

OUR MISSION:

The Birth Hope Center's mission is to provide a loving home and education or vocational training for outcast pregnant, unwed teens, who are often victims of rape and abuse. Left alone they will be homeless and their babies often abandoned. The Birth Hope Center will position them for a bright future and provide an environment for them to become the person God created them to be. We empower them to earn a living so they are able to love and care for their baby or choose to love through adoption. They will have a power to love, work, and serve God faithfully.

Jeremiah 29:11

" 'For I know the plans I have for you' declares the Lord, 'Plans to prosper you and not to harm you, plans to give you hope and a future.'"

Birth Hope Center
Dongobesh, Tanzania

HOPE is something we can build our lives on. "It is confident anticipation that goodness is coming". The Birth Hope Center is a place where a young girl that has been abused, raped, left pregnant and filled with shame can find hope, love, joy and a future!

OUR MISSION:

The Home of Hope is a place where orphans can find refuge, care ,and a future! It is a loving environment where they are clothed, fed, and educated. They will learn about Jesus, God's love for them, and their importance in the Kingdom of Heaven.

"Pure and genuine religion in the site of God the Father means caring for orphans and widows and their distress..."
James 1:27
